REACHING NEW HEIGHTS

Reaching New Heights is an engaging visual and educational experience packed with tools, strategies and actionable ideas that can be put into practice to make positive changes in our professional and personal lives. It is built around the two years of planning and two months of climbing that went into making the goal of reaching the summit of Mount Everest a reality for Alan and three members of his immediate family. Considered one of humanity's greatest feats of physical, mental and emotional endurance, the exciting expedition to the top of the world's highest peak is a journey filled with unparalleled challenges through some of the roughest, most extreme conditions imaginable. The powerful strategies and skills that contributed to this achievement, especially during the intense and at many times critical situations, can be applied to all aspects of life.

KEY TAKEAWAYS

- The importance of maintaining an adaptive mindset
- Empowering team members to make informed decisions
- Agile tools for making adjustments by incorporating lessons learned
- Maintaining positive mental-health and controlling focus
- Resilience and perseverance in achieving strategic goals
- Developing trust and cohesion in professional relationships
- Improving communication and breaking down barriers
- Risk management, mitigation and developing response strategies

“Extremely motivating. Everyone has an ‘Everest’ to conquer and Alan’s techniques are spot on”

– Jennifer Krause | Caterpillar
